EDUCATION

California College of the Arts

Master of Design in Interaction Design
GPA: 3.37
Aug 2023 – Aug 2025

East China Normal University

Bachelor of Art in Fine Arts
GPA: 2.96
Sep 2011 – Jul 2015

SKILLS & TOOLS

UX & Design

User Research · Interaction Design · Wireframing · Prototyping · Design Systems · Information Architecture · Usability Testing

AI & Emerging Tech Tools

ChatGPT · TouchDesigner · Processing · Arduino

Design Tools

Figma · Adobe Photoshop · Adobe Illustrator · Adobe After Effects · Adobe InDesign · Adobe Premiere

Software Development

Framer · WordPress · ProtoPie

ACTIVITY

The 8th Anhui Art Exhibition

Work "Lotus" was shortlisted for the 8th Anhui Art Exhibition
Dec 2022

Certificate

Construction Enterprise Full-Time Safety Production Management Personnel Certificate
Service officer Safety officer
Dec 2021

Volunteer of China Art Palace

Volunteer work at China Art Palace Exhibition
Dec 2021

EXPERIENCE

UX Design Intern

Sep 2025 – Jan 2026

Wander App

- Redesigned onboarding flow to improve user understanding and first-time experience
- Analyzed user feedback and behavior data to identify friction points and optimize interaction steps
- Collaborated with product managers and engineers to iterate onboarding structure and visuals
- Improved consistency with the overall product experience and increased user engagement

Architectural Designer

Mar 2022 – Aug 2023

Shanghai Shangda Architectural Design Institute

- Led early-stage concept design and spatial strategy for landscape and planning projects
- Conducted site research and translated insights into actionable design solutions
- Coordinated with clients and stakeholders to refine design direction and ensure feasibility

Architectural Designer

Jun 2018 – Mar 2022

Modern Architectural Decoration Design Institute

- Developed spatial concepts, material systems, and user-oriented environmental experiences
- Collaborated across teams and supported project delivery from concept to construction
- Ensured design quality and alignment throughout implementation

PROJECTS

Care Card

Elderly Travel Support System

Designed an IoT-based service to support elderly users traveling independently by simplifying interactions and enabling caregiver-assisted operations. Conducted user research and developed system flows and interactive prototypes.

Interactive Lighting

Interactive Feedback Design

Developed an interactive prototype using Arduino and Processing, enabling voice and touch input to control lighting with real-time visual feedback, exploring physical-to-digital interaction.

Pressure Visualization Interface

Interactive Feedback Design

Designed a pressure-sensitive interaction that transforms physical input into dynamic visual and audio responses, investigating expressive and responsive user experiences.
